Summary

Lead Software Engineer with 12+ years of experience in backend and mobile development, specializing in .NET and Swift. Architect of scalable mobile and backend systems, with proven experience leading cross-functional teams and delivering production-grade applications from concept to release. Strong focus on clean architecture, long-term maintainability, and aligning technical execution with business objectives.

Experience

- Landesmedienzentrum Baden-Württemberg** Stuttgart
Lead Software Engineer 07/2024 - Present
- Own end-to-end product lifecycle for iOS and iPadOS applications, from architectural design to App Store release.
 - Define technical strategy and architecture for mobile and backend systems, ensuring scalability and long-term maintainability.
 - Lead and mentor development team, establish coding standards, conduct reviews, and enforce engineering best practices.
 - Design and implement secure backend services and REST APIs powering mobile and web applications.
 - Build and maintain CI/CD pipelines and containerized infrastructure using Docker, Kubernetes, and Azure DevOps.
 - Coordinate across product, design, and infrastructure teams to align technical execution with strategic goals.

- WS Audiology** Erlangen
Lead Software Engineer for Mobile Applications 07/2021 - 06/2024
- Led architecture and development of a Swift-based SDK enabling reliable Bluetooth (BLE) communication between iOS devices and medical hearing aids.
 - Modernized Xamarin SDK and led migration to .NET MAUI, improving performance and cross-platform maintainability.
 - Defined mobile architecture standards and ensured compliance with medical device software requirements.
 - Conducted senior-level technical interviews and supported strategic team expansion.
 - Collaborated with international cross-functional teams across iOS, Android, and backend domains.
 - Prototyped innovation initiatives including Apple Vision Pro and live translation applications.

Skills

- 📦 .NET / C#
- 🏗️ WPF / Xamarin / MAUI
- 📱 Swift / SwiftUI
- 🏠 Mobile Architecture
- 🔌 API & SDK Architecture
- 📦 Docker & Kubernetes
- 🔧 Azure DevOps / CI-CD
- 📶 Bluetooth (BLE)
- 🗄️ SQL Server / Postgres
